

I have heard that Sinclair Broadcasting is forcing their stations to air an anti-Kerry documentary days before the election. This is totally an affront on our rights as citizens. I was under the impression that there are rules about equal representation when it comes to election time and this violates every aspect of those rules. Sinclair Broadcasting is obligated to serve us, the public. By only presenting an Anti-Kerry campaign and not putting anything on the public airways that could be considered Anti-Bush or Pro-Kerry, they are abusing their power as a media conglomerate.

Please do something to protect the rights of American citizens and provide a fair representation of all candidates... or none at all!!
